ST. LUKE'S HOSPITAL SCHOOL OF NURSING

## *Forward*

*From uncapped students to graduates,  
From old nurses' residence to new,  
From basic nurses' training to professional  
nursing,  
From one beginning to a new beginning.*

Yes, we've come a long way and we now have the opportunity to reminisce and to express our deep appreciation to all of those who have contributed so much to our progress.

As we turn these pages, we think of the beginning, when each one of us, coming from different homes and places, began to live and work together, share each others joys and sorrows, and now, still have so much in common, we take our respective places in nursing, always to work together.

### *Dedication*

We, the class of 1950, dedicate this yearbook to Miss Dorothea Schleicher, our night supervisor, to show our appreciation and deep gratitude for her patience and wise guidance through our loneliest hours of duty. The memory of her kind understanding and useful teachings will be with us always.

Fred G. Carter, M. D.  
*Superintendent*

### To the Class of 1950

Greetings!

I congratulate you upon your entry into one of the oldest and yet one of the newest fields of human endeavor. As far back as historians have been able to probe, there have always been people who concerned themselves about the health and physical well being of their fellow men. Nursing is one of the more recent manifestations of this interest.

Of late, on local, national, and international levels there seems to have been a vast upsurge of public interest in the activities of the whole field of health and many expansive changes appear to be in the making. I can't say what all of these changes are likely to be, but I am certain that many are inevitable and they give promise of furnishing great career opportunities for thousands and thousands of young people searching for lifetime occupations. I believe that the health field is destined to become one of the largest employers of people in the world. It is just beginning to get to its feet. It is only now awakening to a full realization of its potentialities and its responsibilities. It is gradually emerging from its shell of provincialism into a world of cosmopolitan interest. It will may be the basis for a better understanding of world problems by the peoples and nations of the earth, for if we understand the physical and mental health needs of the individual thoroughly and make him right in his subjective feelings, his attitudes, his outlooks and his relationships with his fellow men, the world will take care of itself. The health field stands out as one of the newest great fields of opportunity.

Your entry into nursing at this time assures you an important place in the great developments that are in the offing.

Sincerely,

F. G. Carter, M. D.  
*Superintendent*

Kenneth Shoos  
*Administrative Assistant*

Wm. D. Hoskins, M. D.  
*Administrative Assistant*

Mrs. Marion W. Hall  
*Director of Nurses*

### Greetings to the Members of the Class of 1950

The time is approaching when you will be completing your three years as a student at Saint Luke's Hospital School of Nursing—an occasion of greatest importance to you.

The course of study and the experiences of these years have helped to mold your attitudes and develop your skills in a very positive manner and toward a specific goal. In the immediate future you will meet challenges to your ability and judgement which we trust you are prepared to meet successfully.

We are in the midst of very interesting developments in professional nursing education and careers, and the future offers opportunities of infinite variety. These will require recognition of our personal responsibility for wise decisions and action, so that people who need our services may receive our very best for their total welfare.

I earnestly hope that you will obtain from nursing that satisfaction and happiness which was the desire that prompted you to enter this profession.

With best wishes for your success and happiness,

Cordially yours,  
(Mrs.) Marion W. Hall  
*Director, Department of Nursing*

Miss Helen M. Bryan  
*Administrative Assistant*

Miss M. Ruth Smith  
*Educational Director*

## *The Nightingale Pledge*

I solemnly pledge myself before God and in the presence of this assembly:

To pass my life in purity and to practice my profession faithfully.

I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug.

I will do all in my power to elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my profession.

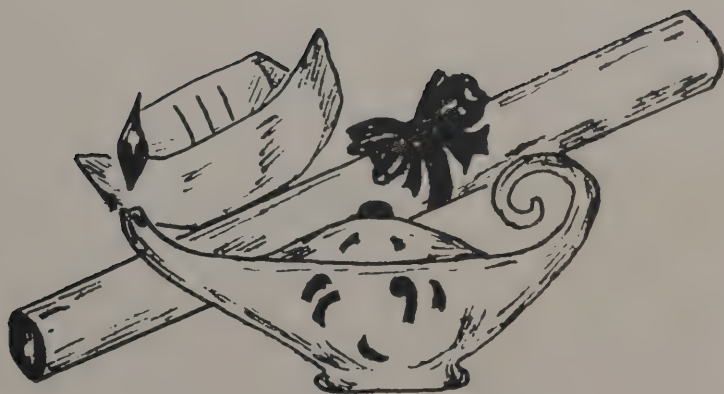

With loyalty will I endeavor to aid the physician in his work, and devote myself to the welfare of those committed to my care.

## *Work*

Let me do my work from day to day,  
In field or forest, at the desk or loom,  
Let me but find it in my heart to say,  
When vagrant wishes beckon me astray,  
"This is my work, my blessing, not my doom;  
Of all who live, I am the one by whom,  
This work can best be done, in the right way."

Then shall I see it not too great nor small  
To suit my spirit and to prove my powers;  
Then shall I cheerful greet the laboring hours,  
And cheerful turn when the long shadows fall  
At eventide, to play and love and rest,  
Because I know for me, my work is best.

## *Class Prophecy of 1950*

"Just look at me yawning—it must be getting late and I had better get to bed if I have to get up early tomorrow morning. O-O-O-o why did I eat that limburger, dill pickle, and onion sandwich before going to bed?. My stomach is turning loops and my head along with it; in fact, I think I'm seeing things. Look at that calendar dancing around on my dresser! I know it's important as a gadget to have around but why all the fuss? Wonder what the date is? Wow, it's already May 1970? The years are flying by so fast I can't believe it's possible. What has happened to my old classmates of our 1950 graduating class? I've tried my best to keep track of them during these lean hard years, but it hasn't been too easy. Who was the girl I read about in the paper the other day? Oh yes, it went like this:

Mrs. Winona Ernestine Wintringham Spoon has just given birth to her fourth child naming him "Zoop" Spoon. Good old Lil Pestotnik is still one of those career girls and is with Barnum & Bailey's Circus as head nurse of the animal dispensary. She is becoming quite adept at trimming baby elephants' toenails. Speaking of circuses, Gracie Young is the pride and joy of the side shows being known as "The Spotted Lady" resulting from an affliction of an early skin disease. I can remember when her condition started way back in our senior student days.

Mrs. Betty Walker and husband Jimmy have established a chain of Lullabye Shops throughout the country and have become fabulously wealthy. According to rumors, their business was inspired by Betty's beautiful infant knitwear produced during her student days. Mrs. Jean Fricke Gyorky is still operating the "Lulu-Belle Auto Repair Shop." Incidentally, the Gyorky's are still driving Lulu-Belle, the famous car of years past, despite numerous pecuniary offers to establish it in "The Old World Museum."

I read a pamphlet in the library yesterday about our own Dr. Beatrice Ruhf with assistants Marilyn Hitchcock and Adelle Miller. Dr. Ruhf, noted head of Boston Medical Center, has been doing extensive research on that new drug, Beadrano, proven to remove skin blemishes (often skin, too). Speaking of skin blemishes, our famed cosmotologist, Florence Kupper, is sponsoring Dr. Ruhf's product for the Veterinerian Association.

The nation's Shirlee "Canary-Throat" Siciliano has completed her second concert tour of European royalty under the management of Misses Yerger and Gilchrist. Her able accompanist is Madame A. Traviata Gutzman who at a recent appearance stated, "I owe all of my success to my first professor, Miss Beatrice Birkbeck." Incidentally, Dr. Birkbeck and her eminent husband, Dr. Rense, are in darkest Africa persistently teaching "Psychological Aspects of Child Development" to the natives there.

The former Lois Wertz, novelist, nurse, and mother of fourteen offsprings, has published her latest manuscript entitled, "Sixteen Can Live As Cheaply As One—If You Starve Yourself." Patricia Hillyer and Donna Lemasters have been exiled from this country for the thirteenth time for their crimes—namely, pushing sweet old ladies down open manholes and putting bubble-gum on street car tracks.

More things have taken place. For instance, we still have Huntzinger's Hideaway Henery for Happy Hens, "Photo-Face" Downs and her Snap-Shop, "Traver's Madcap Six" spotting Clara Colvin with her hot basoon solo, Pfout's Bouts at the arena with Boyer's Babes, "The Great Sinner," Hoffman's Hamburger Haven featuring Friedt Eggs, Schneider's Tavern, and not forgetting Leak and her Universal Faucet Company.

Imagine Donna Ahrens as football coach at that famous women's college, Vaseline, with Anna Maye Morris as the All American Tackle of the year. Misses Shirley Over, Patricia Miser and Phyllis Morr are busily hitch-hiking all over the United States delivering catnip to millions of poverty-stricken cat homes in honor of "Be Kind to Pussy-Cat Week." Betty Roode and Louise Semancik have completed their first bicycle tour of Ohio. In itself, this does not sound like much of a feat, but Louise and Betty signed an edict that they would travel only without the aid of roads and cowpaths.

The Mesdames Ruth Machovic, Alice Greer, Dorothy Samuels, and Suzanne Ahlstrom are busily employing an architect for the construction of their new "Keep-em Kleen Kiddie Laundry." The idea was conceived when the four families got together weekly to do their own washings at the Laundromat.

Miss Nancy Ferrato is crowned tennis champion of the Bermuda Islands for the fourth consecutive year. Miss Eleanor Sykes is campaigning for votes in next years election for congresswoman.

"Dimples" Stevensen and "Bubbles" Stout are retiring from the screen after fifteen years of successful movie life. It is rumored that through public demand and influence, one last picture will be made which will be the story of their lives. Joan Lawrence is still head runner in the Cleveland Yacht Club races every year. She and her trusty craft, "The Kenmore," have been declared undefeated as said renowned Judge, Mary Louise Heckel, at the yacht club banquet held in San Francisco last year.

The former "Rhythm Boomerangs," composed of Leiser, Mason, and Schanda gave up their title to play the leading roles in a New York musical stage hit. At a recent interview, they staged no desire to return to their old positions at the Stork Club in New York.

Yvonne Dawson has spent the past years trying to find the hidden mines of old Bill Dawson, her famous cowboy uncle. Due to this experience, she has grown to love the life of a cowgirl and refuses to budge out of the Wild West Country. Mrs. Sally Adams is superintendent of nurses in their newly founded Adam's Clinic for Obnoxious Eyes in Hawkinsville, Mexico.

Have you noticed Baylor's Burping Counter down at Higbee's lately? It's getting pretty bad, I think, when mothers can't even take out time to bubble their own babies when shopping. "Shupp's Stoop" is now located in University Circle after repeated attempts to buy out Moe's Main Street Cafe.

No doubt you have heard about Conover's additions to his cover book models? Ah yes, Del Petrick and Jean Hinman are both well up on the fashion world now. Janie Hutchinson has just signed with N.B.C. to take over Marie Wilson's place in "My Friend Irma." Miss Peg Robertson has established herself as the Sherlock Holmes of the Underworld in her exploitation of the "Hot Rod Murders." The last we heard from the former Betty Komora was that she and her husband were still running around Europe trying to promote better foreign relations there. Any news from her would be greatly appreciated.

There goes that alarm clock again. Oh, I must have been dreaming and what dreams! If some of those come true, what an outstanding class we will be!! Right after work I am going to get Freud's book on "Dream Analysis" and see what this all means. Maybe better yet, I had better watch what I eat before going to sleep. I wouldn't like to go through that again, that's for sure."

We students at St. Luke's School of Nursing are very proud of the fact that we are self governing. The official name of our student organization is the Cooperative Organization of St. Luke's School of Nursing. It was organized in 1939 and all students automatically become members, paying a fee annually. This fee is included in the Student Activities Fee which is collected from each student.

Membership in the student organization consists of the faculty, administrative officers, and students of the Nursing School. New students upon entrance automatically become members.

Attendance at all meetings is compulsory, thereby ensuring all students a voice in their government. Meetings of the whole student body, known as mass meetings, are held every two months on the second Wednesday of January, March, May, July, September, and November. The Cabinet, consisting of the Director of the School of Nursing, Student Counselor, a faculty representative, officers of the cooperative organization, Chairman of committees, and class representatives, holds meetings on the first Tuesday of every month. It holds the power to transact the general business of the group subject to the approval of the whole organization.

Besides being the organ through which matters pertaining to the entire student body are transacted, our student organization aims to provide for a more pleasant life for each individual girl. It does this largely through fostering social activities, such as these few examples:

September 14—Welcome Party . . . held in main lounge of residence for Big 'n Little Sisters . . . the welcome mat extended to the class of 1952 . . . laughs and fun . . . a grand opportunity to get acquainted . . . P J's and Pin Curls.

September 15—Weiner Roast 'n Marshmallow Toast . . . held at Forest Hills Park . . . in honor of 1952B . . . games, softball, and oodles of food to eat . . . great fun . . .

October 18—P. J. Party . . . held in main lounge . . . for all students . . . to welcome . . . Miss Norma Thompson as assistant residence director . . . cider and doughnuts served. . . .

October 19—Pep Rally . . . ST. LUKE'S ADOPTS CASE . . . one of the most important events in the life of each student . . . talks by Coach Ride and his men . . . movie of Case Roughriders . . . Case cheerleaders showing us some cheers . . . we are definitely all for it . . . .

October 21—Tea Dance . . . at Tomlinson Hall . . . dancing from 4-6 . . . the first tea dance of the season . . . .

October 28—Hallowe'en Party . . . in Recreation Room . . . held for the purpose of completely establishing our new relationship with Case . . . cider, doughnuts, and apples . . . square dancing . . . great fun . . . .

November 24—Case-Reserve football game . . . League Park . . . Thanksgiving Day . . . St. Luke's provides two girls as cheerleaders for Case . . . .

December 2—Christmas Carnival . . . raise money for the annual . . . Christmas tree and decorations in the Recreation Room . . . dancing to Case's dance band . . . television and cokes in the back room . . . fortune teller . . . .

December 17—The Snowball . . . our winter formal . . . Chagrin Valley Country Club . . . punch party beforehand in main lounge of residence . . . an automatic 2 o'clock . . . dancing to the music of Bob Patti and his orchestra . . . each girl looking so lovely in her evening dress . . . a night we will all remember . . . .

December 19—Christmas Program . . . Prentiss Auditorium . . . for all hospital personnel . . . to welcome in the Christmas holiday . . . with Dr. Santa Claus Koehler . . . .

December 20—Christmas Eve Party . . . main lounge . . . for all residents who didn't go home for the holiday . . . .

Besides the many social activities, our student organization has been active in promoting the formation of a city-wide student organization. The Student Nurse Organization of Greater Cleveland aims to bring unity and cooperation between all student nurses in Cleveland and to encourage student interest in professional organizations and community projects. Membership consists of all students entered or affiliated in accredited schools of nursing in greater Cleveland. On December 20, this group held a city-wide student nurse Christmas party at the Hotel Cleveland at which our choral group sang and our School of Nursing put on a skit called "Little Nell."

HALLOWE'EN DANCE

CHRISTMAS BAZAAR

## *Event of the Year*

*Standing:* J. Gibson, C. Vasko, B. Dorsch, F. Hauser, J. Brooks.

*Kneeling:* G. Hildebrand, B. Heaton.

## **Papers of Adoption**

This document contains the legal adoption of Case Institute of Technology by the student nurses of St. Luke's Hospital School of Nursing on this twenty-eighth day of October in the year of our Lord, nineteen hundred and forty-nine.

We do hereby pledge our undying loyalty to the Case Engineers and promise to back all educational, athletic, and social activities sponsored by Case Institute of Technology.

Student Nurses

## Official Adoption

The idea of adopting Case was proposed in Mass Meeting by the Social Committee. This idea was greeted with enthusiasm because it would further social activities and give the girls away from home an opportunity to meet college students. It was suggested that we boost all athletic, educational and social affairs at Case.

Our educational director, Miss Smith, presented the idea to the athletic directors at Case who seemed to think it would do wonders for the boys' morale to say nothing of ours. This encouragement was all we needed! Things started "to pop" almost immediately: Case responded with a Pep Rally in our recreation room. The rally featured movies of the Case-Lehigh game shown by Coach Ray Ride, and pep talks by members of the team and Booster Club.

Our adoption of Case is being boosted by the bi-monthly tea dances at Tomlinson Hall and exchange parties and dances which are already in full momentum.

## Supervisors and Instructors

## *Life in the Residence*

### Residence

All Students live in a nurse's residence with single room accommodations for three hundred people located just east of the hospital, with entrance on Shaker Boulevard. This building is connected with the hospital by a covered passageway. It is comfortably furnished and has a large recreation room, lounge, small reception rooms and reference library on the main floor. A "Browsing room" with up-to-date fiction, popular magazines and newspapers is part of the library. Well-equipped kitchenettes, pressing rooms and attractive sitting rooms are found on each floor for the convenience of the residents.

A Residence Director who is also a Counsellor and her Assistant are in charge of the Residence at all times.

## *Our Residence Directors*

## *Receptionists*

*Standing:* S. Townhill, J. Cooper, P. Cannon, B. Van Duesen.

*Seated:* E. Stora, H. Middleton.

## Life In The Residence

When we first entered the residence three years ago, for most of us it was a new and rather frightening experience. We formed attachments and interests even on that first day which we would keep for the rest of our lives. Soon we were a closely knit group.

First theory passed quickly and soon we were talking not of classes, assignments, and tests, but of patients, procedures, and floor routine.

That year many of us spent our first Christmas away from home. We began to learn the real meaning of disappointments and gratifications.

Then came a milestone that made us realize we were well on our way—Capping! How we paraded in those caps and how we complimented each other on our new look!

Then one bright summer day we moved en masse into our new residence. Those first few days in our new home were full of discovery. So many modern conveniences. We soon took full advantage of everything.

It was almost a pleasure to study in the library. We were proud to entertain our friends in the lounges with records or in the recreation room with pingpong or dancing.

The small lounges on each floor were soon used for bridge parties and get-togethers. We settled down and felt right at home.

Our second year at St. Luke's was spaced with classes and floor duty, with informal dances, stunt night, and the Junior-Senior banquet to keep us busy in our spare time.

In the spring of our Junior year affiliations loomed up—our class was split for the first time. New friends, new experiences, and new surroundings filled our days for almost a year. When we returned we had a new confidence in ourselves and a new eagerness to carry out all we had learned.

Our last months were filled with plans for the future and our last student activities. Sandwich sales, Annual Dance, and preparations for Graduation!

On the last day of April and the first day of May, Baccalaureate and Commencement exercises brought to us varied feelings of excitement, inspiration, and sadness.

Then came the long awaited day when life as a student was over, and a new life was beginning—finishing breakfast! With our friends gathered around us we burned our blue badges, the student symbol, and sang to the future—"Should old acquaintance be forgot—!"

1. Record playing.
2. Sure is easy.
3. Dance in Rec. Room.
4. Favorite pastime.
5. Afternoon tea.
6. What a life!

### A Call To Worship

From preclinicals to seniors, graduates, doctors, and personnel there is always a quiet place for meditation, whether it be for guidance, forgiveness or worship. Our Chapel! It is located near the center of the hospital—at its heart so to speak.

During our student days we have chapel services each Thursday evening with our chaplain, Rev. Charles Bright. For these services our Student Cooperative Association elects a chairman of the Vespers Committee. She has girls from each class assist her and, through their work, we have a religious aspect brought into view.

Rev. Bright, along with guest speakers, has brought us messages from the Bible and applied to our everyday lives as nurses and citizens. The school choir and girls with special vocal and instrumental talent have provided music. Our special chapel services include Thanksgiving, Christmas, and Good Friday.

Our first morning at St. Luke's started out with a Sunrise Chapel service and our last day as students ends with a hymn—"Blest Be The Tie That Binds."

It is the earnest hope of each of us that our tie with nursing is blessed and that in times of sorrow and depression of happiness and elation we can help others say, "Blest Be The Tie That Binds."

### *The Girls Chorus*

The Girls' Chorus under the direction of Mrs. Lillian Haskins consists of approximately thirty members. It meets in the residence music room once a week, to sing semi-classical, religious and spiritual arrangements. This year, as it gained in popularity, the choir presented several outstanding programs for the Alumnae Association and at the Student Nurse Convention held in Cleveland during the fall. It also sponsored the caroling throughout the hospital on Christmas day.

It's plans for the future include a program with the Case Men's Glee Club. The Girls' Chorus is open to anyone who is interested in music and furnishes an excellent diversion for the students during their leisure hours.

## *New Conquests*

On March 28, 1949, the first group of our class left on affiliation. Excitement and expectation were built up by the rest of us, for we knew of the new fields for which we would be trained and in which we hoped they would be happy.

Our dreams were not in vain. At City Hospital, besides learning about psychiatry, tuberculosis, and contagious diseases, we learned to get along with girls from schools all over the state. Our dates, "psycho dances," "Tom's," "the Flamingo," and "Marie's" were off duty pleasures. The carnival, tennis courts and swimming pool provided plenty of recreation.

On to Frances Payne Bolton and the new field of pediatrics. Campus life, "Wades" and "Dorsels" enlivened our lives—the latter two, our stomachs. The Christmas parties and parties in the dorm were a pleasant change.

Then back to St. Luke's—home—enriched in education and ability, looking forward to using our knowledge to make our hospital a better place.

Seven months—Hard work? Sure, but what fun!

## *Informals at Affiliations*

1. Talk, talk, talk.
2. Our pride and joy.
3. Ain't she cute?
4. Jo Lawrence.
5. At it again.
6. Eatin time.
7. Yvonne and Donna.

## Affiliations

1. Donna Lemasters.
2. Peg Huntzinger.
3. Ki, Betty, Sally, Marg.
4. "We three—"
5. Just sittin'.
6. Must have been good.
7. "Let's keep those kitchens clean!"

*vinylated* **Box Springs**  
*and mattresses*

All box springs and mattresses contain some dust. Some sleeping outfits contain so much linter dust that the irritation to the nose and throat hamper breathing and makes sleep difficult. To sufferers from sinus or dust allergy, dusty bedding is outright dangerous. • The ticking on the **VINYLATED BOX SPRINGS** and **MATTRESSES** is completely lined with vinyl plastic. Only the slightest iota of dust can work thru the seams of this plastic lined ticking. • Improve your sleep and enjoy the health building possibilities of clean and sanitary bedding. • Box Spring and Mattress, both for \$119.50 • Sleep Shop—2nd Floor.
